

Luis Gimenez

Orlando, FL 32801- 407-520-4100 luisgimenezdev@gmail.com
github.com/menezmethod linkedin.com/gimenezdev gimenez.dev

EDUCATION

Bachelor of Science in Software Development July 2020 - February 2021 Western Governors University, Salt Lake City, UT

TECHNICAL SKILLS

Languages: Go, Java, JavaScript, TypeScript, Python, C#

Databases: CockroachDB, PostgreSQL, MongoDB

Tools: Docker, Git, GCP, Spring, Django, React, Angular, GraphQL

Testing: Ginkgo, Gomega, JUnit, Cypress

Monitoring: Prometheus, Grafana, Jaeger

EXPERIENCE

Software Engineer II

April 2022 - Present The Home Depot - Atlanta, GA

- Worked on a payment card tender system handling over 5 million transactions daily.
- Integrated advanced monitoring tools, reducing latency by 20%.

Web Developer

Sept 2015 - April 2022 Menez Enterprises - Orlando, FL

- Built web applications that are cross-device compatible and accessible, resulting in a load time that was 27% faster than the industry average.
- Improved efficiency by 25% by testing software for bugs and operating speed, fixing bugs, and documenting processes.
- Created a compatible, custom client dashboard, resulting in a 30% reduction in support tickets.
- Collaborated with UX/UI design teams and improved existing applications, increasing conversion rates by 20%.

PROJECTS

- Trading Journal - written in React for the front-end & Go for the back-end microservices.
Client: github.com/menezmethod/st-client/ Server: github.com/menezmethod/st-server
- Issue Tracker - Full Stack Issue Tracking System built with React & Spring.
Client: github.com/menezmethod/kiwibug_frontend/ Server: github.com/menezmethod/KiwiBugBack
- Inventory System developed utilizing Spring Boot and React.
(github.com/menezmethod/inventorysystemreact)
- Multi time-zone Scheduling Application developed using Java and JavaFX
(github.com/menezmethod/JSScheduleLG_java)
- Student Roster developed using C++
(github.com/menezmethod/StudentRosterLG_CPP)
- Mobile Semester Scheduling application developed using Java & Android Studio
(github.com/menezmethod/WGUSchedulerMobile)
- Personal portfolio website developed with React (gimenez.dev)
